

# Classes on offer:

**Ballet:** Based on the RAD syllabus, ballet classes provide an introduction to basic positions and movements, free work and improvisation, imagination and storytelling. We aim for every child to come away with a love of dance and theatre as well as good posture, poise, coordination, musicality and self-confidence, grace, discipline and a good time!

**Music Box:** Aimed at enthusing a love of music in children, we work with the basic building blocks of music, rhythm, pitch, tempo and dynamics. These skills are practiced in singing, dancing, art making, rhythm games and the use of musical instruments.

**Creative Drama:** Using games and group improvisation, children develop good listening skills, imagination and the need to work together as a team. We encourage an appreciation and a deep love of literature and aim to develop self confidence, sociability as well as expression, through imaginative skills, but most of all, loads of FUN!!

**Popstars:** A fun packed, high energy course designed to give structure to a child's burning desire to sing and dance. The children learn contemporary pop and musical theatre numbers, choreograph them and sing them in the class, and at the end of term - perform them to friends and family.
