

LITTLE SPACES

*Music and Lyrics by
Denver Casado*

There are little spaces
In little places
I like to be

I like to go and hide there
And be inside there
Just little me

And just for a moment no one knows just
where I am
I sorta just scrunch up, sit all bunched up
I just fit in

In those little spaces
In little places
I think of Mom

And how she always helps me
And always tells me
To just stay strong

Cause when I'm at school they always call
me little twig
But in little spaces, in little places
I...feel...

Big!

(ad lib)

I feel big!
I feel like a giant!
Giant and big!

So if you ever need me
But cannot see me
And if you care

Check those little spaces
In little places
I'm prob'ly there

But maybe before you look just give me some
more time
'Cause I could be dreaming I'm enormous
Like a giant brontosaurus
In this tiny little space that's all
mine.
